DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-20 in the reply filed on January 14, 2005 is acknowledged.
2. Claims 21-34 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-20 rejected under 35 U.S.C. 103(a) as being unpatentable over Jundt, US 6,618,630
5. Jundt discloses management of a communications network, e.g. Fig. 1, an asset manager, e.g. 28, an informational link between an on-line sub-object and off-line sub-object, e.g. cols. 6-7, including receiving serial number and part number, e.g. Fig. 2, flowchart 128. Official Notice is taken that physical asset managers corresponding to an in-repair sub-state of an un-installed state to an installed state, providing an

installation operation, an de-installation operation, in-stock sub-state has been common knowledge in the asset management art. To have provided such for Jundt would have been obvious to one of ordinary skill in the art. The motivation for providing such would have been to keep track of common knowledge spare parts in an asset management system.

6. Further pertinent references of interest are noted on the attached PTO-892.
7. Applicant's Information Disclosure Statement has been reviewed. Note attached PTO-1449.
